

Humboldt meets Leibniz

Connecting Talents Across Generations

Emerging Topics in Optics and Photonics Networking Event for Emerging Talents

12–14 June 2022
Hannover, Germany

Deadline:
01 November 2021

Are you an up-and-coming researcher in the field of optics and photonics? Do you want to expand your personal network, exchange ideas with recognised experts across disciplines and forge research contacts for the future?

Then apply for "Humboldt meets Leibniz"!

This networking event brings 150 doctoral and postdoctoral researchers together with 14 renowned award winners of the Alexander von Humboldt Foundation to discuss current research projects and explore individual career paths.

Topics:

- › Materials and metamaterials
- › Material simulation
- › Manufacturing and control systems
- › Quantum optics and components
- › Multiphysics simulation
- › Laser and systems
- › Optical imaging
- › Metrology

Details:

- › 12-14 June 2022
- › Hannover, Germany
- › Plenary and invited talks, oral and poster presentations
- › Sessions on career topics
- › Financial support for travel and accommodation costs
- › Deadline: 01 November 2021

Leibniz University Hannover invites you to join us at Schloss Herrenhausen, Hannover, and meet the leading experts in your field!
